Width of safety area: 5 930 mm
Required safety area: 103,95 m²
(Install shock absorbing material according to EN 1176:2017)

Length: 24 184 mm
Width: 2 575 mm
Height: 1 900 mm

Playground equipment steel foundation is concreted in the ground at the planned location. The equipment can be used after two days when the concrete becomes solid. During assembly no children are allowed in the area. Foundation should be accessible for maintenance.

Equipment safety checkings must be performed once in a week in high vandalism risk area.

Maintenance is required once in every 3 months, depending on usage.

Transportation:

One palette: 1 = 2 000 x 1 000 x 1 000 mm

Spare parts:

All needed spare parts and elements, when warranty time expires can be ordered in Jūrmalas Mežaparki Ltd., and all the goods will be ready for delivery in 5 working days.
