(Install shock absorbing material according to EN 1176:2017)

Playground equipment steel foundation is concreted in the ground at the planned location. The equipment can be used after two days when the concrete becomes solid. During assembly no children are allowed in the area. Foundation should be accessible for maintenance.

Equipment safety checkings must be performed once in a week in high vandalism risk area.

Maintainance is required once in every 3 months, depending on usage.
