(without excavation and
concreting)

Lenght: **945 mm**
Width: **240 mm**
Height: **860 mm**

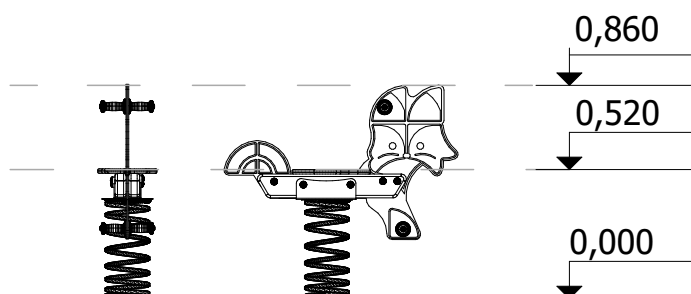

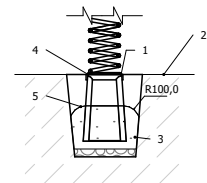

Lenght of safety area: **3 745 mm**
Width of safety area: **2 840 mm**
Required safety area: **9,59 m²**

(Install shock absorbing material according to
EN 1176:2017)

Playground equipment steel foundation is concreted in the ground at the planned location. The equipment can be used after two days when the concrete becomes solid. During assembly no children are allowed in the area. Foundation should be accessible for maintenance.

Equipment safety checkings must be performed once in a week in high vandalism risk area.

Maintainance is required once in every 3 months, depending on usage.

Transportation:

1 (one) package:
1 000 x 1 000 x 500 mm

Spare parts:

All needed spare parts and elements, when warranty time expires can be ordered in Jūrmalas Mežaparki Ltd., and all the goods will be ready for delivery in 5 working days.

According to EN 1176:2017
